Hector Parraga

25+ years unleashing safety, health & environment. # Expert in management systems optimizes resources for success. Let me help transform your business & achieve goals.
Peru

Summary

With over 25 years of experience in safety, health, and environment, I am a seasoned expert in optimizing resources through management systems to minimize costs and enhance organizational performance. I have worked in leading industrial, insurance, and construction companies, gaining extensive experience in safety, health, and environmental programs, compliance with legal requirements, and risk management.

My expertise in management systems, including ISO 9001, ISO 14001, and ISO 45001, allows me to design and implement integrated management systems to ensure business excellence and customer satisfaction. I have also led and participated in multiple audits and certification processes to ensure compliance with international standards and best practices.

My leadership style is collaborative and empowering, with a focus on building trust-based relationships and promoting a sense of ownership and accountability among employees. I have a passion for sustainability and environmental protection, and have implemented environmental management programs to reduce waste and promote efficient use of resources.

I am committed to promoting a safety culture in organizations, focusing on accident prevention, risk reduction, and creating a positive work environment. I have implemented training programs, workshops, and campaigns to raise awareness among employees and stakeholders, promoting safety as a core value of the organization.

Ultimately, my goal is to help organizations achieve excellence in safety, health, and environmental performance, enhancing their reputation and creating a positive impact on society. With my

experience, expertise, and leadership skills, I am confident that I can help your organization unlock the power of safety, health, and environment and achieve your goals.
